## Four Hundred Feet Of Gate Bottom Is Combed By Divers

(By Stuart B. Dunbar)

Following out a pre-arranged program, determined upon last June by the board of directors of the Golden Gate Bridge and Highway District, two divers experienced in working under extreme depth conditions, last week commenced a series of explorations at the site of the south pier of the Gate span.

**Work Was Retarded.**

When the exploratory work originally was ordered by the directors it was impossible to carry it out, owing to the fact material excavated from the south pier site as well as from the south anchorage had piled up to such an extent as to make it impracticable. This waste material now has been thoroughly scoured out by tidal action as revealed by soundings recently taken and the exploration of the bottom is to be carried out in the most thorough manner under the personal direction of district engineers.

**To Make Thorough Survey.**

It was pointed out by Francis V. Keesling, chairman of the building committee, the diving operations will furnish a complete verification check of soundings, slopes and contours as shown on government maps and determined by soundings carried out by the district. The divers will go 300 feet, or more if necessary, beyond the outside of the fender location, making a thorough check of the character of the bottom and charting each dip or eminence of the rock.

**Work In Slack Water.**

W. M. Thompson and J. A. Anderson are the men engaged to carry on the underwater investigations. Each diver has two attendants who man the air equipment and controls on the surface. The first dive was made at 9:13 o'clock during slack water period. It is proposed to continue the work for 10 days, taking advantage of slack water between each tide. Diving operations are being carried on under the personal supervision of engineers and officers of the district who will be in attendance at each dive and in constant telephonic communication with the men working on the bottom so a complete running record of conditions may be made as the explorations reveal them.

**BROTHER WAS KILLED**

W. H. Messick was called to Hanford Monday by news of the death of a younger brother, Fred Messick, who was killed in an automobile accident Sunday. Funeral services were held yesterday.

**SUNDAY SERVICE**

"Wings of the Morn" will be the pastor's theme at 11 o'clock at the Methodist church. Communion will be administered at the close of the service. There will be special music at both services.

**GEORGE RYAN MURDERED**

(Continued from Page One)

the home shortly after he left. They heard the rifle discharged and went in the direction of the sound but he had vanished when they arrived.

**Heard Victim Groan.**

At the time the shot was fired, Henry C. Spurr, residing in the Bowen Apartments ,heard the noise and heard Mr. Ryan groan as he fell to the floor of the porch and heard the car leave. There was much confusion at the time, with everyone in the dark as to who committed the crime and the motive for it.

**A Likeable Man**

George Ryan was popular here in a wide circle of friends. He was kind-hearted and generous and did much good in his way. For 13 years he had been a resident of Ukiah.

**Family Old Residents.**

The Scholl family is a pioneer one here with a large family connection. Francis Scholl has always been regarded as a quiet, unassuming member of the family, except when he succumbed to a growing weakness that has culminated in a tragedy that has brought sorrow and bereavement to a young mother and her two little daughters and much sadness into other hearts, including those of the family of the offender and the whole community which was shocked and grieved beyond expression at the receipt of the news Saturday night and Sunday morning.

**Burial Here Tuesday.**

Funeral services for Mr. Ryan were held yesterday afternoon at 2:30 o'clock at the Federated Methodist church with Reverend Warren Bonner officiating. During the service Dr. Robherd Thomas sang a solo. The pallbearers were R. R. Byrnes, Guy Redwine, Al McCabe, Beverly Broaddus, Clay Denham, Rex Lieurance. Interment was in the Ukiah cemetery. Edward A. Eversole was in charge of the service. The funeral was a very large one with many friends paying their last tribute of respect in flowers and attendance at the service. George Ryan was born in Little Rock, Arkansas, 34 years ago. For a number of years he resided at Crescent City where a mother and several brothers and sisters, all here for the funeral service, reside. Beside his devoted wife and two charming little daughters, they are left to mourn his untimely passing.

**Had Recent Misfortune.**

Misfortune first struck at the Ryan family a short time ago when Mrs. Rose Copsey, mother-in-law of the murder victim, suffered the fracture of a knee bone when knocked down by a bicycle rider. Mrs. Copsey has been in business adjoining the Ryan establishment and has been confined to the hospital for some weeks and unable to take care of her business interests. The family has the sympathy of many friends in their great misfortune.

**ARE TO MOVE**

Attorney and Mrs. Henry C. Spurr are moving shortly from the Bowen Apartments to the residence in West Perkins street owned by Mr. and Mrs. Lester Eastlick. The home is one of the most attractive in the western part of the city.

**Why Hospitals Use a Liquid Laxative**

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. ## A BAD SLIDE IS ANNOYING

### Fairbanks Hill Slipping And Cannot Be Restrained

(Special Correspondence of The Press)

ANDERSON VALLEY, Jan. 30.—Plans are being completed for a program and chicken dinner to be given at the Boonville church February 10, proceeds from which will be used to buy hymn books for the church. A short play will be included on the program which is under direction of Mrs. George Estes, and the hot chicken dinner will be served in the dining room at the rear of the church from 5:30 until 8 p. m.

**At McGimsey Home.**

Mrs. Louis Castro, of Campbell, has been passing a few weeks here with her son, Marshall McGimsey, and family. Mr. and Mrs. McGimsey met Mrs. Castro in Santa Rosa Saturday.

**Miss Clow At Home.**

Miss Elizabeth Clow, who has been quite ill some time and has been in San Francisco under the care of a physician returned to her home here recently much improved in health. Miss Clow is being cared for by Mrs. H. V. Nichols under directions from her San Francisco doctor.

**A P. T. A. Benefit.**

A P. T. A. benefit in the form of a card party will be given at the high school Saturday evening. Suitable prizes will be awarded and door prizes also will be given. Refreshments will be served by P. T. A. members. The co-operation of the community will be appreciated.

Mr. and Mrs. William LeMenager, of Sonoma county, were guests of Miss Mary Donnelly over the week-end.

J. T. Farrer and Donald Mackintosh were drawn on the grand jury for the coming year.

**Suffers From Carbuncle.**

W. L. Witherell is suffering intense pain from a large carbuncle on his nose. He has made two trips to Cloverdale where he is being treated by Dr. D. C. Oakleaf and he is under Mrs. H. V. Nichols' care.

M. L. Farrer and J. D. Farrer were visitors in the bay district over the week-end.

Mr. and Mrs. J. H. DeRosier were recently advised of the arrival of a granddaughter at the Emil DeRosier home near Eureka. This is their first grandchild.

**Made Grocery Donations.**

About 30 members of the Unity Club met at the home of Mrs. George Estes with Mrs. B. M. Field and Mrs. A. B. Willis as assisting hostesses. Following the business session Mrs. Willis, Miss Allo Willis and Mrs. Estes entertained members with readings. A special feature of the meeting was the donation by each member of a pound or more of staple groceries which were turned over to the welfare committee for emergency relief work. Hot chocolate and home made cookies were served by the hostesses and a social half hour enjoyed before the club disbanded. Members were delighted to have Miss Clow with them again as this was the first meeting she has been able to attend this year.

**Slide A Bad One.**

A 25-foot fill on Fairbanks hill is traveling down hill with results the roadbed has dropped about 10 feet and the piling in of gravel only seems to increase its speed. It is feared the entire fill will slide out. The highway crew has been able to keep a one-way road open above the highway and has worked at it from both top and bottom where a couple of pieces of the culvert were taken out.

Mrs. Robert Tyson has moved to Fort Bragg and the Renauvarro family has moved into the house she vacated.

**Have The Job.**

The mile and four-tenths of highway on the McDonald-to-the-Sea road to be constructed has been let to Coates Construction Co. This runs between the Burger place at Yorkville to this side of The Oaks.

**Injuries Were Severe.**

Donald Prather, younger son of Mr. and Mrs. Earl Prather, will be confined to his bed for the coming month as a result of an automobile accident on the coast, when he sustained several broken ribs and a fractured breastbone and numerous cuts and bruises. Robert Hutsell, who was with Mr. Prather, was hurt but not seriously injured, and has since been able to resume work. The accident occurred when the two young men left Point Arena.

**Plays Violin Well.**

Mr. and Mrs. Omar Carner and daughter, Lois, of Santa Rosa, were guests of Mrs. M. J. Fry recently. Mrs. Fry is a great aunt of Mr. Carner. Miss Lois although only 11 years old, is a talented violinist and she entertained the family with a number of selections.

We are sorry to report H. V. Nichols has been quite ill again; he is now improving slowly.

**Organizing Choir.**

A church choir has been organized by Mrs. George Estes. At present there are 12 members but it is hoped to add to that number.

**Delay Is Explained.**

Judge H. J. June, state examiner appointed by the Division of Drivers' Licenses for this section, has received many inquiries regarding the delay in the issuance of renewals and in taking the matter up with the department at Sacramento he has been advised the delay is caused by the volume of work going through the office at this time of the year together with a shortage of funds. The state suggested Judge June issue further temporary licenses to parties who have not received theirs and if at the end of 60 days the license has not arrived to again take it up with the department.

**Mrs. Burke Sick.**

Mrs. I. C. Burke is confined to her bed with a bad knee which has been causing her a great deal of pain the past week and she has been ordered to take a 10-day rest.

Former Sheriff R. R. Byrnes was greeting friends in Boonville Tuesday.

**Teacher Has Resigned.**

On account of ill-health, Mrs. Lyle Rawles Brinegar has had to resign as teacher of the Shields school. Patrons of this school will regret to lose such a capable teacher. A weeks' vacation was taken and the trustees expect to have a new teacher by Monday.

**Had Bad Fall.**

L. N. Campbell suffered a sprained back Wednesday when a barn roof he was repairing gave way and he dropped through. Mr. Campbell was fortunate not to be more seriously injured.

### COMPLETES GARAGE

Charles Swanfelt, local contractor and builder, has recently finished a garage and gas station on the Talmage-Ukiah road for E. B. Ball who has placed his son, Irvin Ball, in charge. The station is located on the eastern side of the property of the late M. B. Gibson, formerly known as the Pettis ranch.

## *To Cut C. W. A. To 15 Hours Weekly*

An order originating in the San Francisco offices of the Civil Works Administration was received by the local CWA office permitting employment of workers on various projects for 15 hours a week instead of 30 hours and providing for changing crews so a greater number of persons could be employed. This order was in line with the wishes and efforts of the National Re-employment Service office, and it was a great disappointment to learn on the morning of the 18th that telegraphic orders had been received by the local CWA office not only superseding these instructions but ordering a reduction of the hours worked by the present quotas to 15.

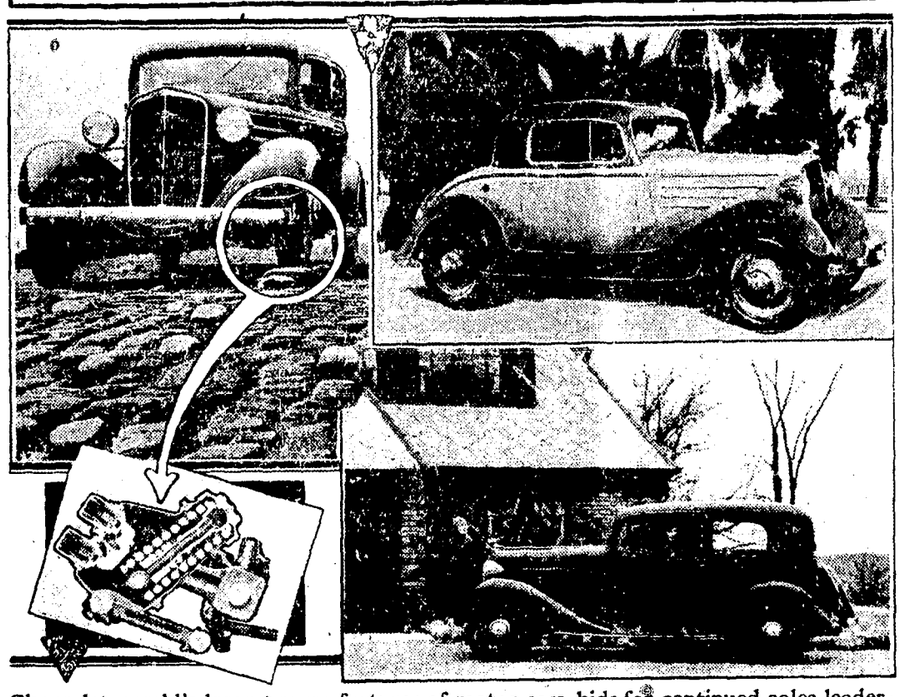
## Proclaimed "America's Thrill Car for 1934"



Chevrolet, world's largest manufacturer of motor cars, bids for continued sales leadership in 1934 with a striking new line of cars, which go on display locally today. The oustanding feature of the new Chevrolet is "Knee Action" wheels, illustrated at left, "levelling off" a bumpy road. Two models of the line are, top right, the Coupe, lower right, the Coach. The new Chevrolet has a wheelbase of 112 inches, smart new styling, a speed of 80 miles an hour, and according to its creators, changes "riding into gliding."

Proclaimed by its creators as "America's Thrill Car For 1934," the new Chevrolet, with magical "Knee Action" wheels, a Blue Streak engine of 80 horsepower providing a "glide instead of a ride" at 80 miles an hour, goes on display this week.

**A Handsome Automobile.**

Sleek, superby styled, with a 112-inch wheelbase and "The ultimate in size for a low-priced, economical car," the new Chevrolet—its sponsors declare—will once again lead the entire field in sales as it has done for the last three years.

**Tells About It.**

Of the car and its features, W. M. Packer, western sales chief for Chevrolet, says: "The new Chevrolet provides a glide instead of a ride because the sensations of sound and feeling that annoy the motorist, have been eliminated. The new Chevrolet is lower, longer, more streamlined. The engine has been moved forward in the chassis. The seating has been radically changed. Because of knee action wheels and miraculous distribution of weight, this new Chevrolet provides a perfect Back-Seat ride. Even though the whispering Blue Streak engine whisks you out of traffic with the ease of a magic carpet and speeds you over all types of roads, you are always aware of the fact that you are gliding, not riding in this new car.

**What Produces Result.**

"The secret of this glide is knee action wheels. At the General Motors Proving Ground over medieval Belgian block road, I drove this new Chevrolet and experienced a gliding sensation at 50 miles an hour through ruts a foot deep and over boulders eight inches high. So smooth is the Chevrolet glide that one member of our party read a newspaper and another smoked a cigar that had an ash two inches long while the car was gliding at 80 miles an hour. By independent front wheel suspension — the knee action unit—is meant the attachment of the front wheels directly to the frame without the use of a front axle. In the conventional type of engineering it was necessary to have very stiff front springs because these springs and axles had to hold the axle and wheels in place. Independent springing relieves the front springs of this task and permits the use of a front spring which has a soft, velvety action -- just as soft, in fact, as the rear springs. Thus the new Chevrolet has front and rear springs of equal tension."

"If you want your money to go 30% farther, here's my advice—

"Break in new tires at this time because cool roads toughen rubber cold-cure it. Thus tires put on now will run about 30% farther than the same tires started off new on hot summer roads. That means you get 30% more mileage plus immediate non-skid safety. At today's low prices, isn't that worth thinking about?"
